Snow Pea Shoots 100g - SHO05R

These elegant pale stems have developed an intense snow pea flavour which zings with every bite and pumps a green, grassy flavour. As with mature snow peas, there are 'strings attached' – a fibrous thread running the length of the shoot defining it as a true snow pea.

Flavour: A full pea, grassy flavouring.

Uses: Use in salads, sandwiches, stir-fries, add flavour to meat dishes, or as a garnish.

Appearance: Pale firm stems with vibrant green leafy sprout

Storage: To maintain freshness, store Flowerdale Farm shoots between 1-4 degrees C. Snow Pea Shoots should be consumed within 14 days of packing. Rinse lightly under cold clean water before use.

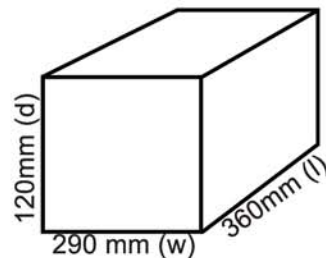

Health Benefits: Snow Pea Shoots are high in protein and provide a good source of calcium, vitamin B1, C, and niacin.

Product Sizes: 100g (Box of 12 x 100g available wholesale).

Availability: Flowerdale Farm's Snow Pea Shoots are cultivated in hydroponic conditions and are available year round
