Alfalfa & Onion Sprouts 120g - SPR04R

Alfalfa & Onion Sprouts are a totally new onion experience. Fleshy and juicy, the juvenile stems are packed with a delicious onion flavour without the impact of the bulb. Heady and aromatic when bruised, the delicate stalks also deliver a sweet, fresh alfalfa flavour.

Flavour: Mild onion flavour with fresh alfalfa notes.

Uses: There are a million reasons to use onion as a flavour base - in this form it can star as a flavour boosting architectural feature. Try it in sandwiches, salads or as a garnish for any savoury meal.

Appearance: Feathery, pale, lace like strands with a small green sprout. Some sprouts will have the soft onion seed head attached.

Storage: To maintain freshness, store Flowerdale Farm Alfalfa & Onion Sprouts between 1-4 degrees C. Sprouts should be consumed within 14 days of packing. Rinse lightly under cold clean water before use.

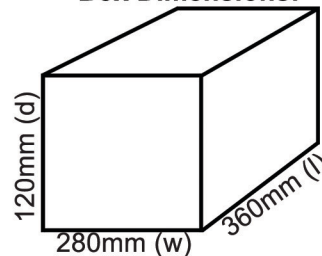

Health Benefits: Alfalfa is rich in antioxidants, containing protein, calcium, potassium, carotene, iron, and zinc. Vitamins A, B1, B6, C, E and K are also present.
