Coriander Microgreen Pot - MIC21R

They say good things come in small packages and this is certainly the case with Microgreen Coriander. It delivers a more intense flavour than the adult plant, with a soft, supple texture and signature aroma.

Flavour: Intense aromatic coriander flavour with slight anise and pepper flavours.

Uses: Delicious in Indian and Asian meals and a staple in salsa and salads. Add to chicken, beef and vegetable dishes. Use as a garnish that zings with flavour.

Appearance: Long slender leaves which occasionally have a spherical brown coriander seed attached at the tip.

Storage: To maintain freshness, store between 1-7 degrees C. Microgreen Coriander should be consumed within 10 days of packing. Rinse lightly under cold clean water before use.

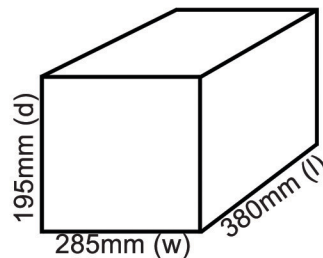

Health Benefits: Microgreen Coriander is rich in anti-oxidants and dietary fibre and contains folic-acid, riboflavin, niacin, and vitamins C, A, and K.

Product Sizes: Open Pots (12x pots available wholesale)

Availability: Flowerdale Farm's Microgreen Coriander is cultivated in hydroponic conditions and is available year round.
