## Chive Microgreen Pot - MIC19R

A popular variety, Microgreen Chive contains all the potency of the mature plant in a petite package. Robust enough to withstand cooking, try Microgreen Chive instead of onion in your next meal for a fresh twist.

**Flavour:** Strong onion flavour. Slightly sweet, but without the harsh pungency of onion. Flavour develops when lightly warmed.

**Uses:** A terrific inclusion in soups, salads and sandwiches. Add to meat, roasted vegetables, pasta, and risotto or as a topping on gourmet pizza.

**Appearance:** Striking long, thin, green, cylindrical blade with black seed still attached to its tip.

**Storage:** To maintain freshness, store between 1-7 degrees C. Microgreen Chive should be consumed within 10 days of packing. Rinse lightly under cold clean water before use.

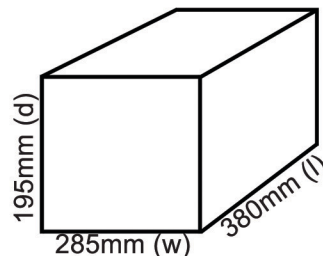

**Health Benefits:** Microgreen Chive contains potassium, calcium, folic acid and vitamins A, C and K.

**Product Sizes:** Open Pots (12x pots available wholesale)

**Availability:** Flowerdale Farm's Microgreen Chives are cultivated in hydroponic conditions and are available year round.

Box Dimensions:
